

FOOD SAFETY POLICY

As a responsible corporate citizen, we remain committed to:

- a. the manufacture of food grade products in strict compliance with applicable legislation and customer requirements
and
- b. continual improvement in the operations with the aim of preventing contamination, minimizing health risks and enhancing overall food safety.

To achieve the above, we confirm we shall strive to:

- a. develop and maintain technological upgradation related to operation, health and work place environment.
- b. adopt standard manufacturing, hygiene and distribution practices.
- c. create awareness about the food safety amongst all employees, contract workmen and other stakeholders.
- d. set annually measurable objectives and review it.
- e. address internal and external communications related to food safety.

This policy will be reviewed periodically and updated as may be required. It is available to the public on demand.
